MARKSMAN WINS A BLUE RIBBON—LEO'S JUMP.

There was a perceptible falling-off yesterday in the attendance at the Horse Show. It was the last day, and the Executive Committee had saved little for the closing performance. In the morning the Association's prize for the best pair of trotters brought out only one team, Capadura and Williston, owned by John C. De la Vergue, of this city. The next premium awarded was for the best gentleman's roadster, for which there were twenty-two entries. W. H. Wilson's Lady de Janette was permitted, however, to have a walk-over. Then there was a competition for a special prize given by I. T. Hyde for the best draught stallion, which was won by Raspail.

In the afternoon there was a brisk and spirited competition for J. R. Keene's prize to the best jumping pony to be ridden by gentlemen. The ponies were taken around the enclosure three times, and had to jump in the circuit three four-bar rails. All of them cleared the jumps admirably 'save young Antoni, who was riding Gray Tom, belonging to the Gentlemen's Driving Club, and who fell a cropper over the first rail. Plenty of willing hands helped him and his pony up, and they left the enclosure sadly. Thomas Hitchcock, who was riding Pierre Lorillard, jr.'s, pony Dumpling fell with his mount over a rail, but recovered himself quickly and went around capitally. Young Foxhall Keene on his white pony. Fox, jumped well, but cantiously, in strong contrast to the brilliant, rushing way in which young Magoun, a boy of twelve, took his leaps on his pony, Little Chief. Every leap he took received a salvo of applause; all the grooms, the Executive Committee, and even the judge cheered him, and every female heart beat in hopes of his success. But after the rails came the high jump, which was started at four feet six inches and proved too much for Little Chief, who is only four feet six inches high himself. To the great regret of every body the gallant boy and his plucky pony, after three unsuccessful attempts, left the arena. The prize was wen by

The high jump contest for qualified hunters, class No. 98, brought out a field of ten, Miss Payson's Comie Soogah, E. C. La Montague's Fleuritte, E. D. Morgan's Marksman and Aleazar, Stanley Mortimer Sunsame and Aleazar, Stanley Mortimer F. G. Griswold's The Clipper, and R. L. La Montague's Wild Irishman. Stanley Mortimer rode his own borse. Thomas Hitcheock rode Miss Ochrich's bay, The Doctor, and there were grooms and whips on the other mounts.

The bars were raised three inches at a time until five feet nine inches was reached. At this time only Marksman, Leo and The Clipper remained in the centest. Leo cleared the bars well, but the second har fell out, and it was thought that the first bar would have failen, had it not been held by two grooms. Leo was sent out, but the case was reconsidered, and he was permitted to come back and the leap was counted as a good one. Then the top bar was raised to six feet and the spectators held their breath. Marksman, a bright sorrel—with a broad blaze in his face, was sent at it first, and cleared it splendidly, but in descending kicked the top bar down. He was bronght up a second time, and cleared it in the most perfect fashion. The spectators cheered tumnituously and the Kentucky groom attered some fine Indian yells. Leo was rushed at the leap, but he blundered badly three times in sneecheered tumnituously and the Kentucky groom attered some fine Indian yells. the coveted blue ribbon was bestowed on Marksman.

The class for judgment was the special prize given by D. Morgan for the best hunter. There were eleven cutries, and among them F. Gebhard's Leo who was ridden by Smith, the first whip of the Queens County Hunt. The animal became highly excited by the leaping, and after making two turns around the enclosure taking his jumps famously, he became uncontrollable. Instead of turning at the eastern end of the enclosure and coming around for his next rail, he dashed at the rail of the enclosure which was crowded with people, four and five deep. He cleared the fence and all the people, knocking off a man's hat with a sweep of his tail and upsetting a lady. She declared that she was not hurt. Smith retained his scat and brought Leo to a standstill in the exit corridor which was almost empty. The prize in this class was won by Stanley Morthner with Masquerade.

"MART" ALLEN ON TRIAL. HIS BROTHER "WES" BESIDE HIM IN THE COURT OF GENERAL SESSIONS.

Martin Allen, one of the notorious Allen brothers, of whom several have served terms of imprisorment, was again placed on trial vesterday in the Court of General Sessions. THE PRINTERS' STRIKE.

TWENTY-TWO SHOPS ACCEPT THE SCALE—THREE LARGE ESTABLISHMENTS STILL HOLD OUT.

The strike of the printers is about over. Twenty-two shops informed the union yesterday that they would accept the seale and their men were ordered to return to work. There are now three large establishments against which strikes are in force. George Munro refuses to treat with the union at all, as yet, and says that he will not do so. The officers of the union are confident, however, that, when he sees how successful the strike has been, he will yield. Norman L. Munro still hopes to effect a compromise, but the men are firm in their demands and anticipate that he will accede to them at an early date. The only other large printer who holds out is L. Middleditch, of No. 26 Cortlandt-st. There are a number of small establishments which have acceded to the scale but which will not take back the men who went out on strike. The strike committee has not, as yet, decided what course to take in these cases, but will do so at a meeting to be held this morning. The union, it is said, has taken in 300 new members since the strike began. There are now 200 men out on strike. A considerable diversity of opinion exists as to the effect the advance will have on the printing business. C. G. Burzoyne said that he thought the establishment of a uniform scale of pay would enable employers to estimate with more certainty on large jobs, and that the effect would be benenicial to the trade at large. C. D. Wynkoop thought that a large amount of work would be inversely and that the research would be benenicial to the trade at large. C. D. MONEY FOR SCHOOLS AND PARKS.

The Board of Estimate continued yesterday its consideration of the provisional estimates for 1884. The estimate of the Board of Education calls for \$4,431,950, an increase of \$681,930 over the amount allowed for the present year. President Stephen A, Walker said that the Department needed every dollar it had asked for. The population of the city was increasing rapidly. There were now several thousand more scholars in the public schools than last year, and there had been a corresponding increase in the expenses for teachers' salaries and the other expenses for teachers' salaries and the other expenses that go to make up the total outlay. He was opposed to reducing the said rice of teachers. Alderman Relly said that if there was any change the salaries should be increased. Mr. Walker, continuing, said the Board of Education needed \$250,000 for purchasing sites for school buildings, \$600,000 for purchasing sites for school buildings in the Ninth Ward, one in the Twelfth Ward, one in the Twenty-second Ward, one at North New-York, and one at High Bridge, Commissioners Coudert, Wetmore and DeVoe strongly urged the Board to grant the increased amount asked for.

Park Commissioners Viele and Crimmins appeared in behalf of the Park Department. General Viele

said that the estimates call for \$1,107,500. For the present year the Department received \$732,000. In 1882 it received \$682,000. A committee of citizens headed by John B. Haskin, D. H. Olmstead and S. S. Randall strongly urged the advisability of making liberal appropriations for the items asked for the annexed district by the Park Commissioners.

CORONER TICE'S MYSTERY.

A DEATH CERTIFICATE BY MRS. DR. MARR. DIDIA CHILD DIE OF MEASLES, OR WAS IT POISONED -WHAT THE MOTHER SAYS.

The investigation by Coroner Tiee and a jury at Mount Vernon in the case of Rudolph Sigmund, the infant who died at the Mount Vernon branch of the New-York Infant Asylum, was closed last night. A verdict was rendered to the effect that the death was attributable to gross negligence on the part of the persons in charge of the institution, and censuring the manager of the asylum for mismanagement.

Coroner Tice was asked by a Teinune reporter about the affidavits which he was said to have in his possession relative to another investigation of a death in the Mount Vernon Home of the New-York Infant Asylum.

Infant Asylum.

"Have a smile?" suggested the Coroner, as he leaned on the bar of his liquor shop and cast a suggestive glance at the array of bottles ranged about his mirror. He was willing to talk of "smiles" and "pigeon shoots" and everything except the affidavit, but about them he refused to say anything implying, however, that it it was an exceedingly important case. Next week he would take it up, he said, and until then nothing could be made public without defeating the ends of justice.

could be made public without deteating the justice.

It was subsequently learned, however, that the affidavits related to the death of little Mabel Currie, a child of nearly a year old, who died last August. In the death certificates it was said that her death was caused by the measles while the affidavits show that by the blunder of the nurse, the baby was given aqua-ammonia, when quinine was intended for her medicine. An effort will be made to show that the child's tongue and the roof of her mouth were burned by the ammonia, causing intense suffering and after twelve hours, death; also that she did not eat anything after taking the ammonia.

INSURANCE NEWS AND INCIDENTS. INSURANCE NEWS AND INCIDENTS.

A meeting of the Insurance Journalists' Association of the United States was held on Thursday at the Mills Building. The session was mainly a business one. An Executive Committee for the ensing year was chosen, as follows: J. H. C. Whiting, The American Exchange and Review, Philadelphia; W. H. Bonsall, The Spectator, New-York; S. H. Davis, Insurance, New-York; P. Tertius Kempson, the Insurance Monitor, New-York; C. C. Boupbaugh, The Insurance Monitor, New-York; C. C. A new rate-book was issued yesterday by Superintendent Harrison, of the New-York Board of Fire Underwriters. The average rate in the new tariff district is given as 86 50-100, and the present average rate on Broadway at 90 97-100. By the former schedule the average rate was only 73 57-100 in the old dry-goods district. The rates tabulated in the new book go into effect on November 1.

DEFACING FORT LAFAYETTE
Old Fort Lafayette, on its little island in the Narrows, has been for a long time deserted. Being without a garrison it has been under the control of the Corps of Engineers, and has been used as a storehouse. Recently Colonel Gillespie stored in it iron taken from the wreck of the Nankin. On Wodnesday one of the Colonel's men reported that suspicious looking persons had been lurking about the place. It was thought that thieves were after the old iron, but on Thursday the whole thing was explained, for when the sumrise gan boomed from Fort Hamilton and the early light fell on the historic walls of Fort Lafayette, it shone on letters of white five feet high stating that The Herald was sold for two cents.

of white five feet high stating that The Herald was sold for two cents.

Colonel Gillespie was found in his office in the Army building by a THBUNE reporter yesterday. When informed of what The Herald had done he was extremely surprised and indignant. "No one but myself," said he, "has authority to give permission for any such thing, and it is unnecessary for me to add that I have given no such permission. This is the first I have heard of it. The matter shall be attended to at once, I will have the advertisement effaced and make The Herald pay for it. The United States Government does not erect forts to have them defaced by advertisements." have them defaced by advertisements.

SEMI-CENTENNIAL OF A BUSINESS FIRM. SEMI-CENTENNIAL OF A BUSINESS FIRM.

The woollen commission house of Sullivan, Vail & Co., at Nos. 329 and 331 Broadway, yesterday celebrated its semi-centennial. The firm was started by Wilson G. Hunt, at Pearl and Chatham sts., on October 23, 1833. It was originally a jobing house, but for the past ten years has been entirely in the commission business. The firm became Hunt & Noyes soon after it was founded and has since undergone several changes of name, Wilson G. Hunt and N. Sullivan, who founded the house fifty years ago, are still special pariners in the business. The firm is one of the few in this city whose history reaches back half a century. It has lived through financial panies, and all those other vicissitudes of trade which have wrecked so many business houses, and is to day one of the largest and soundest houses of the kind in New-York. When the firm was first started, at Pearl and Chatham sts., the dry-goods business was mainly in Broad-st., and Mr. Hunt found himself too far up town. The firm removed to Maiden Lane and William-st., then to Park Place and Church-st., and finally to its present location.

COUNTERFEITING IN COURT. COUNTERFETTING IN COURT.

Judge Benedict and a jury began yesterday to hear evidence in the United States Criminal Court in the case of Van Kensselaer Abrams, who is said by the Secret Service officers to be one of the most expert counterfeiters in the country. The detectives, after watching the house for a long time, made a descent on No. 2,204 Second-ave., where Abrams had apartments. They found metals of various kinds used in counterfeiting, dies and other articles, A tall, slim stone bottle which was seized was said by Detective Scanlon, when he was on the witness stand, to contain a solution used to give the coins

DR. LYON'S PERFECT TOOTH POWDER. The Best in the World, 25 cents.

Don't Miss It! Wells' "Rough on Rats" I have used Ely's Cream Balm for Hay Fever, and experienced great relief. I cordially recommend it as the best of all the many remedies I have tried.—T. B. Jenks, law-yer, Grand Rapids, Mich.

Suppose you wish to change to a tobacco whose purity is beyond suspicion, which will prove less irritable to the nerves, whose flavor and tragrance are more inviting. What would you choose! Careful analysis shows that Blackwell's Durham Long Cut contains only a trace of nicotine and the nitrates. As these are what make tobacos irritable, you can avoid them by resorting to the Durham Long Cut.

"THE LEADING MONTHLY MAGAZINE FOR BOYS AND GIRLS."

# ST. NICHOLAS,

EDITED BY MRS. MARY MAPES DODGE.

THE New-York Tribune once said: "In the avalanche of immoral literature that threatens the children, some strong, vitally wholesome, and really attractive magazine is required for them, and 8T. Nicholas has reached a higher platform, and commands for this service wider resources in art and letters, than any of its predecessors or contemporaries." The reference to the wide resources in art and letters commanded by St. Nicholas was never more fully illustrated than by the extraordinary list of attractions which that magazine now announces for its future numbers. The following are the names of some of the special features:

"ALMION, AURIA, AND MONA," a two-port story, by
"FARE ON A STREET-CAR," a characteristic paper, by......
"CHRISTMAS AT THE PINK BOARDING HOUSE," a two-part story, by. AN AMERICAN HUNTING STORY, by the well-known writer and archer ...
SIX HUMOROUS FAIRY STORIES, by
A STORY FOR GIRLS, by the popular writer... YOUNG ARTISANS, a valuable series of practical papers, by
"PRAIRIE AND CANON STORIES," by the frontfersman and poet.
"CHILDREN OF THE COLD," by the Aretic commander.
"SUPPORTING HERSELF," a timely subject, treated by PAPERS OF THE CURIOUS HISTORY OF THE ALPHABET, by.....
"WINTER FIN," a fine American home story, by.....
'HISTORIC BOYS," an entertaining historical series, by..... "EDGUARD FRERE AND HIS CHILD PICTURES," and { two important } ... LIZZIE W. CHAMPNEY. Among the many other authors, in prose or verse, who will contribute to the St. Nicholas a

Those who contemplate having any plumbing done thi season should take the trouble to call and examine the HELLYER WATER-LOSET. It has afforded great satisfaction to the residents of the finest houses erected throughout the United states during the past five years. The adoption of a new CAST-LEAD LINED CISTERN has met with favor, where expense was no serious consideration. The resounding noise following the escape of water from the cast-tron cisterns hitherto used with the various forms of modern water-closets, is practically abolished with our "EM-ESS" CISTERNS, and these are now made for use with any water-closet. with any water-closer.
